Section 1

Introduction and purpose

Introduction to SPIN modules

Requirements to undertake this SPIN module

Applicant requirements

Applicants must be a qualified medical professional (e.g. doctor, nurse, pharmacist, physiotherapist, etc.) and have a minimum of 3 years' experience in a clinical setting. Applicants must also be a member of the Royal College of Paediatrics and Child Health (RCPCH) and have a valid RCPCH membership card.

Applicants must have a minimum of 3 years' experience in a clinical setting. Applicants must also be a member of the Royal College of Paediatrics and Child Health (RCPCH) and have a valid RCPCH membership card. Applicants must also have a minimum of 3 years' experience in a clinical setting. Applicants must also be a member of the Royal College of Paediatrics and Child Health (RCPCH) and have a valid RCPCH membership card.

Applicants must have a minimum of 3 years' experience in a clinical setting. Applicants must also be a member of the Royal College of Paediatrics and Child Health (RCPCH) and have a valid RCPCH membership card. Applicants must also have a minimum of 3 years' experience in a clinical setting. Applicants must also be a member of the Royal College of Paediatrics and Child Health (RCPCH) and have a valid RCPCH membership card.

Training quality

Applicants must have a minimum of 3 years' experience in a clinical setting. Applicants must also be a member of the Royal College of Paediatrics and Child Health (RCPCH) and have a valid RCPCH membership card. Applicants must also have a minimum of 3 years' experience in a clinical setting. Applicants must also be a member of the Royal College of Paediatrics and Child Health (RCPCH) and have a valid RCPCH membership card.

Applicants must have a minimum of 3 years' experience in a clinical setting. Applicants must also be a member of the Royal College of Paediatrics and Child Health (RCPCH) and have a valid RCPCH membership card. Applicants must also have a minimum of 3 years' experience in a clinical setting. Applicants must also be a member of the Royal College of Paediatrics and Child Health (RCPCH) and have a valid RCPCH membership card.

#VoiceMatters

What children, young people and families said

"The best doctor is someone who can change your feelings of health can help you on the worst day possible" &T.

"The best doctor is informed about national and local support services for children and young people, signposting and engaging with them" &T.

"things that keep children and young people healthy, happy and well include having good sleep patterns and disconnecting from electronics before you go to bed" &T.

"Being taught about sleep and mindfulness is important" &T.

"You can't sleep if you are worried and scared about stuff going on." &T.

"Mental health is equally important; it might even be more important than physical health" &T.

Questions to think about:

1. How do you think the child's sleep pattern is affected by the underlying condition?
2. How do you think the child's sleep pattern is affected by the underlying condition?
3. How do you think the child's sleep pattern is affected by the underlying condition?
4. How do you think the child's sleep pattern is affected by the underlying condition?
5. How do you think the child's sleep pattern is affected by the underlying condition?

Thank you to children, young people and families from the the RCPCH &Us network for sharing their ideas and views used in this section.

Ensuring fairness and supporting diversity

Quality assurance and continual improvement

Ensuring quality in delivery

1. **Effective selection mechanisms.**
2. **Gathering and responding to feedback**

SPIN governance

SPIN module review and revision
